KIT CONTENTS (20 ITEMS)

Part Number	Description	Qty
WES5723-A	Wescon WES5723 Mini Drill Guide - 3-Leg Anodized Aluminum	1
5723-102-N	Foot, 3 Leg, Plastic	1
5723-2L-102-A	Foot, 2 Leg, Aluminum	1
5723-2L-102-N	Foot, 2 Leg, Plastic	1
WES5723-1-A	Wescon WES5723-1 Egg Cup Style Drill Guide - 3-Leg Anodized Aluminum	1
5721-102-N	Foot for WES5720 Series Drill Guides, Plastic, 3 Leg	3
WES5723-2-A	Wescon WES5723-2 Egg Cup Style Drill Guide - 3-Leg Anodized Aluminum	1
5723-2-102-N	Foot, Drill Guide, Heavy Duty Plastic	1
WES5723-3-A	Wescon WES5723-3 Egg Cup Style Drill Guide - 3-Leg Anodized Aluminum	1
5723-3-102-N	Foot, Drill Guide, Heavy Duty Plastic	1
WES5703-2-T	Wescon 5703-2-T Egg Cup Drill Guide	1
WES5721-A	Wescon WES5721 Threaded Egg Cup Drill Guide - Aluminum Foot	1
WES5722-A	Wescon WES5722 Threaded Egg Cup Drill Guide - Aluminum Foot	1
WES5621-A	Wescon WES5621 Threaded Type Mini Drill Guide - Aluminum Foot	1
5621-102-N	Drill Guide Foot,Nylon	1
WES5631	Wescon Model WES5631 Drill Guide Handle	1
WES5622-A	Wescon WES5622 Threaded Type Mini Drill Guide - Aluminum Foot	1
5622-102-N	Drill Guide Foot, Nylon	1
WES5632	Wescon Model WES5632 Drill Guide Handle	1
WESKITBOX1	Wescon Kit Case, Type 1	1

Comprehensive threaded and SF-bushing drill guides with interchangeable aluminum and plastic footpieces.

The **WESKIT012** Drill Guide Kit provides a versatile drilling solution for applications requiring both SF and threaded bushing compatible drill guides. The kit spans two bushing systems across multiple guide configurations: egg-cup and

mini drill guides in the SF bushing series (WES5723, and WES5703-2-T), and egg-cup (WES5720 series) and mini (WES5620 series) drill guides in the threaded bushing series. WES5630 series ergonomic handles for the WES5620 series drill guides are also included.

The kit is built around interchangeable footpieces, allowing the operator to swap between anodized aluminum and heavy-duty plastic bases, and between 2-leg and 3-leg configurations, without changing the drill guide body. The WES5703-2-T tri-pod base extends this adaptability to curved and irregular surfaces where standard footpieces would not seat flat.

Bushing Versatility: Covers both SF and threaded bushing standards — 3/8"-16, 1/2"-13 threaded, and SF bushing sizes from 5/16" to 3/4" OD — within a single kit.
Modular Footpiece System: Aluminum and plastic footpieces are fully interchangeable across guide bodies, allowing surface-specific swaps without additional tooling.
Surface Adaptability: The tri-pod base on WES5703-2-T provides stable seating on contoured and curved workpiece surfaces.
