* The image represents the general look of the series. Actual product may vary based on options selected.

Threaded drill collets with 1/4-28 male thread and 120 degree seat for aircraft angle drill motors. Hold standard shank drill bits from #50 (0.070 in) to F (0.257 in). 14 stock sizes, custom sizes on request.

WES1605 threaded drill collets screw onto a 1/4-28 threaded angle drill motor and let it run standard straight shank drill bits. The 120 degree seat matches the spindle of most aircraft angle drills, so the collet seats square and the drill runs true.

Fourteen sizes cover wire gauge, letter and fractional drills from #50 (0.070 in) to F (0.257 in), including #40, #30, #21, #10 and 1/8 in. Pick the collet for the drill diameter you run, thread it onto the motor, insert the bit and tighten. Custom bore sizes are made to order for drills outside the stock range. Made in USA.

SPECIFICATIONS

Mount Type	Male Thread
Chuck Type	Collet Chuck
Thread Size	1/4-28
Size	1/4 (0.2500in)
Country of Origin	USA
