* The image represents the general look of the series. Actual product may vary based on options selected.

Short quick change drill collets for the WES1760 short quick change chuck on 1/4-28 threaded angle drills and pancake drill attachments. Standard shank drill bits from #50 (0.070 in) to F (0.257 in). 8 stock sizes, custom sizes on request.

WES1615 collets are the short quick change series. They fit the Wescon WES1760 short quick change chuck, which mounts on a 1/4-28 threaded angle drill or pancake drill attachment, for right angle drilling where a full length collet would not clear. Each collet takes a standard straight shank drill and drops into the chuck without tools.

Eight sizes from #50 (0.070 in) to F (0.257 in), including #40, #30, #20, #10, 3/16 in and 1/4 in. Keep one loaded per drill size and change bits in seconds. Custom sizes are available as an option on the product page. Made in USA.

SPECIFICATIONS

Mount Type	Quick Change
Chuck Type	Collet Chuck
Size	#10 (0.1935in)
Country of Origin	USA
