* The image represents the general look of the series. Actual product may vary based on options selected.

The WES5802 features an up-down swivel head for drilling at angles or in tight spots. Compatible with 1/2" and 3/4" SR/SF bushings, this adjustable drill bar, also known as a "snatch block" or "steam boat", keeps the bushing steady while letting you adjust the angle for accurate drilling. Made in the USA from anodized aluminum and engineered for accurate drilling, it's perfect for hole repair, reaming, or pulling misaligned fastener holes.
