* The image represents the general look of the series. Actual product may vary based on options selected.

The WES5902 features an up-down swivel head for drilling over misaligned or angled holes with WES5501 / 3/8-16 OD or WES5502 / 1/2-13 OD threaded bushings. This adjustable drill bar, also known as a "snatch block" or "steam boat", keeps the bushing steady while allowing precise angle adjustments. Made in the USA from anodized aluminum and engineered for accurate drilling, it's ideal for aircraft hole repair, reaming, or pulling slightly offset holes.

SPECIFICATIONS

Bushing Size	1/2-13
Bushing Type	Threaded
Bushing Length	0.80 in
